

Challenges with CFATS

- ***Terrorism not normally thought of as an every day concern for us ...***
 - ***in terms of our business (food production)***
- ***Food Industry targets Food Safety for health... not chemical theft concerns***
- ***Not a chemical manufacturer/distributor***
 - ***(only a small quantity user)***

Challenges with CFATS

- ***Time delays between steps...***
 - ***Top Screen***  ***SVA***  ***SSP***  ***...***
...Approval / Denial / Inspection
- ***Management Buy-In***
 - ***Due to narrow scope of program***
 - ***i.e. CFATS does not affect many facilities***
- ***CVI – communications / file management***
- ***Maintaining Awareness (Training)***
 - ***Staff Transition / Attrition***

Mike Chapman

***Manager of Process Safety /
Risk Mgmt and Homeland Security Programs***
